

WARNING:

- During recharging the stone will become very hot due to escaping steam.
Handle with extreme care.
- Do not exceed the recommended microwave recharge time and wattage.
- Do not drop.
- Do not submerge in water.
- Do not expose to direct heat.
- Keep out of reach from children or pets.
- The moisture absorbing capacity varies depending on environmental conditions. Additional stones may be needed for larger spaces.

Specifications:

1. Effective Volume: 10 cubic feet
2. Size: 12.2 x 6.6 x 2.8cm (4.8" x 2.6" x 1.1")
3. Net Weight: 120g (0.3 lbs)
4. Country of Origin: Taiwan

Warranty:

Hornady Security® products are covered by a one-year warranty from the date of purchase. See [hornady.com/warranties](https://www.hornady.com/warranties) for details.

RAPID DRY™ DEHUMIDIFIER STONE

Item No. 95898

Features:

The Hornady Security® Dehumidifier Stone uses an advanced patented material to absorb moisture from your safe, gun case, tool chest, or other enclosed area. Quickly recharge the Dehumidifier Stone for unlimited use.

Operation:

- Verify the stone is dry (white) by checking the indicator window. If not, follow the recharge instructions before use.
- Place the dehumidifier stone inside enclosed area. Multiple stones should be used in larger spaces or in areas of high humidity.
- Periodically check the stone and recharge as needed. As the stone absorbs moisture the indication window will change from white (DRY) to blue (WET).
- Recharge when the window turns blue.

Recharge Instructions:

- When the stone becomes saturated, the indicator window will turn blue (WET).
- To recharge remove the protective rubber cover from the stone.
- Place stone in an oven or microwave.

OVEN

Heat
300°F or 150°C

1 Hour

MICROWAVE

Defrost mode
(200W~300W)

9 mins

CAUTION HOT! Handle with care

CAUTION: Do not overheat

- Allow stone to cool before replacing rubber cover.

NOTE: After charging it may take a few hours for the indicator window to return to white (DRY).

Remove protective cover before recharging.
